

## Indonesia Rattan resources

by: Jasni and Krisdianto

Forestry Engineering and Forest Product Processing Research Center (FEFPProc),

Bogor, Indonesia

Table 1. Sustainable rattan supplies in 20 regions in Indonesia

No.	Region	Volume (ton/year)	Percentage (%)
1	Aceh	28.000	4,5
2	Sumut	12.000	1,9
3	Sumbar	38.000	6,1
4	Riau	5.000	0,8
5	Jambi	13.000	2,0
6	Bengkulu	25.000	4,0
7	Sumatera Selatan	22.000	3,5
8	Lampung	5.000	0,8
9	Kalimantan Barat	50.000	8,0
10	Kalimantan Tengah	70.000	11,3
11	Kalimantan Selatan	15.000	2,4
12	Kalimantan Timur	65.000	10,5
13	Sulawesi Utara	20.000	3,2
14	Sulawesi Tengah	75.000	12,1
15	Sulawesi Selatan	37.000	5,9
16	Sulawesi Tenggara	31.000	5,0
17	Nusa Tenggara Barat	13.000	2,1
18	NTT	5.000	0,8
19	Maluku	25.000	4,0
20	Irian Jaya	68.000	10,9
	Total	622.000	100

Table 2. Sustainable rattan supplies among Indonesian provinces

No.	Propinsi	Potensi produksi rotan komersial (ton/tahun)
1	Central Sulawesi	30,000
2	Central Kalimantan	28,000
3	East Kalimantan	26,000
4	Papua	20,000
5	West Kalimantan	20,000
6	South Sulawesi	15,000
7	Southeast Sulawesi	15,000
8	West Sumatera	15,000
9	Aceh	11,000
10	Jambi	10,000
11	Maluku	10,000
12	South Sumatera	9,000
13	Bengkulu	8,000
14	North Sulawesi	8,000
15	South Kalimantan	6,000
16	West Nusa Tenggara	5,000
17	Riau	5,000
18	North Sumatera	5,000
19	Lampung	2,000
	Total	250,000
